

Romance in bloom: Nicole Wittenberg's enormous floral paintings dazzle at CMCA

ROCKLAND, ME.- The Center for Maine Contemporary Art (CMCA) is presenting the exhibition Nicole Wittenberg: Cheek to Cheek, a new grouping of the artist's largest paintings to date. Depicting lush, color-saturated flowers, stems, and leaves against hot, florescent grounds, the enormous canvases surround the viewer with unabashed beauty. "It's always been a hope of mine to make romance pictures," says Wittenberg. Presented in CMCA's Main Gallery, lit by Maine's inimitable north light, the exhibition remains on view through September 14, 2025.
